March 24, 2025

Today, March 24, 2025, OCC updated the Ovation external test environment to correct defects previously identified in testing. The corrected defects are listed on the ***Issues Identified from External Testing*** document linked below.

Dynamic Reports will not have data until after end-of-day processing has completed today, March 24.

### **Documentation for External Testing**

The ***Issues Identified from External Testing*** document referenced below has been updated to reflect these updates.

- ***Issues Identified from External Testing*** lists functionality that is not available in external testing. The list has been updated to reflect recently resolved issues. ([Issues Identified from External Testing Edition 5.0](#) on [myocc.com](http://myocc.com))

### **Clearing Member Documentation Updates**

- ***Clearing Member Report Changes Summary*** is a new document that summarizes how reports are changing in the Ovation platform compared with the ENCORE system. ([Ovation Platform – Clearing Member Report Changes Summary Edition 1.0](#) on [myocc.com](http://myocc.com))

### **Trade Source Documentation Updates**

- ***CSV Input Guide for Trade Sources*** has been updated to include a new Transaction Time field in the Trades CSV layout. ([Ovation Platform – CSV Input Guide for Trade Sources Edition 2.2](#) on [myocc.com](http://myocc.com))

- ***Layout Documentation Updates Summary*** has been updated to include recent changes to published trade source layout documents. ([Ovation Platform – Layout Documentation Updates Summary Edition 1.8](#))

We will continue to provide notice of any changes or pertinent information you may need as testing continues.

If you have any questions, please contact [Ovation@theocc.com](mailto:Ovation@theocc.com), or visit the [transformation website](#), which will continue to house all of the necessary resources and updates related to the Ovation launch.
